ANYWHERE ADVENTURES - ADVENTURE LOG ASSEMBLY INSTRUCTIONS

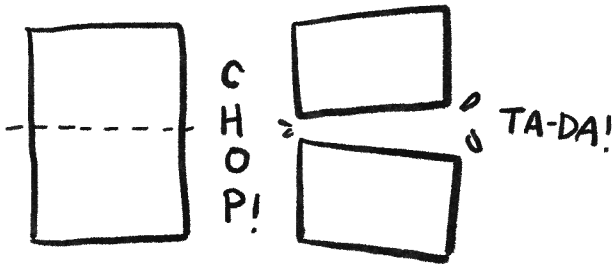

1. Print

Print out the adventure log pages. They are 4 sheets of paper, front/back.

For your printer settings, it should be duplex/print on both sides (flip on long edge)

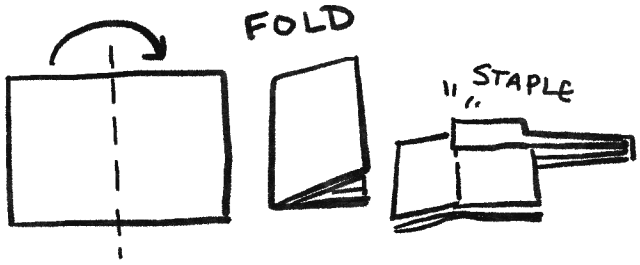

2. Chop

The pages are printed 2-up, so you'll need to chop them all in half.

(Cutting the 11" edge at 5.5")

3. Assemble

Collate the pages. Some of the pages aren't numbered, so it's a little tricky!

4. Bind

Fold all the pages in half together, and staple along the spine

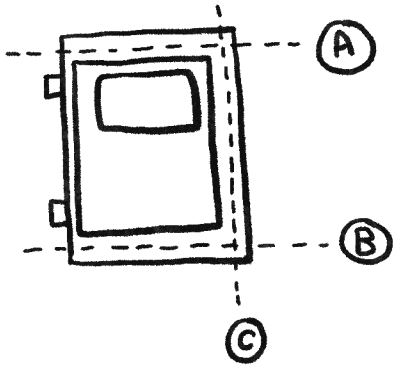

5. Chop again!

This is an optional step, but will make the book look nicer :) Chop the three loose edges again to make it all line up! The dimensions are:

A) 5.5" → 5.25" ish

B) Same dimension, but other side: 5.25" → 5" ish

C) The short dimension: 4.25" → 4" ish

Thank you for assembling! Please let me know if anything is confusing or you need help.
